Distillates (petroleum), hydrotreated light	64742-47-8	265-149-8	1-5%

Each of the other components is present in less than 1 percent concentration (0.1% concentration) for potential carcinogens, reproductive toxins, respiratory tract sensitizer, and mutagens.

### Section 4 - First Aid Measures

**Description of necessary measures, subdivided according to the different routes of exposure:**

**Inhalation:** Remove to fresh air. In the event of breathing difficulties, get medical advice/attention immediately.

**Eye Contact:** Flush eyes under gentle running water. Use sufficient force to open eyelids. Have victim “roll” eyes. Continue flushing for a minimum of 15 minutes. Remove contact lenses, if worn. Seek medical attention.

**Skin Contact:** Remove contaminated clothing. Wash skin thoroughly with plenty of soap and water. Consult a physician if irritation develops and persists. Wash contaminated clothing before using it again.

**Ingestion:** Call a physician or poison control center. Take a copy of the label and SDS with the victim to the health professional.

**Most important symptoms/effects, acute and delayed:** Persons with pre-existing skin disorders, eye problems, and impaired respiratory function may be more susceptible to the effects of the substance.

**Indication of immediate medical attention and special treatment needed:** Treat symptoms and eliminate overexposure.

### Section 5 - Fire-Fighting Measures

**Suitable Extinguishing Media:** Dry chemical, foam, carbon dioxide, water

**Unsuitable Extinguishing Media:** None known.

**Unusual Fire or Explosion Hazards:** None known.

**Explosion Sensitivity to Mechanical Impact:** Not Sensitive

**Explosion Sensitivity to Static Discharge:** Not Sensitive

**Fire-Fighting Instructions:** Incipient fire responders should wear eye protection. Structural firefighters must wear Self-Contained Breathing Apparatus (SCBA) and full protective equipment. Isolate materials not yet involved in the fire and protect personnel. Move containers from fire area if this can be done without risk; otherwise, cool with carefully applied water spray. If possible, prevent runoff water from entering storm drains, bodies of water, or other environmentally sensitive areas.

### Section 6 - Accidental Release Measures

**Personal precautions, protective equipment, and emergency procedures:** Remove all unnecessary personnel. Eliminate all sources of ignition. Wear appropriate protective equipment, including respiratory protection, as conditions warrant.

**Environmental precautions:** Prevent spilled material from entering sewers, storm drains, or other unauthorized treatment drainage systems, and natural waterways.

**Methods and materials for containment and cleaning up:** Absorb spill with inert material (e.g. vermiculite, sand, or earth), then place in suitable container.

### Section 7 - Handling and Storage

**Precautions for safe handling:** Do not eat, drink, or smoke during use. Wash thoroughly after handling.

**Conditions for safe storage, including any incompatibilities:** Protect from physical damage.

### Section 8 - Exposure Controls / Personal Protection

**Engineering Controls:**

**Ventilation:** Provide general or local exhaust ventilation systems to maintain airborne concentrations below OSHA PELs. Local exhaust ventilation is preferred because it prevents contaminant dispersion into the work area by controlling it at its source.

**Administrative Controls:**

**Protective Clothing/Equipment:**

**Hand protection:** Compatible protective gloves recommended. Wash hands after removing gloves. If necessary, refer to US OSHA 29CFR1910.138, the European Standard DIN EN 374, the appropriate Standards of Canada, Australia, or Japan.

**Body protection:** Use body protection appropriate for the task. Coveralls, rubber aprons, or chemical protective clothing made from natural rubber are generally acceptable, depending upon the task. If necessary, refer to appropriate Standards of Canada, EU, Australia, and Japan. If a hazard of injury to the feet exists due to falling objects, rolling objects, where objects may pierce the soles of the feet or where employee's feet may be exposed to electrical hazards, use foot protection as described in US OSHA 29CFR1910.136.

**Eye protection:** Splash goggles or safety glasses with side shields required to prevent eye contact. If necessary refer to US OSHA 29CFR1910.133, Canadian Standards, and European Standard EN166, Australian Standards, or relevant Japanese Standards.

**Respiratory protection:** Not normally required when working with this product. If exposure limits are exceeded, use only respiratory protection authorized in the US Federal OSHA Respiratory Protection Standard (29CFR1910.134), equivalent US State Standards, Canadian CSA Standard Z94.4-93, the European Standard EN149, or EU member states.

**Contaminated Equipment:** Separate contaminated work clothes from street clothes. Launder before reuse. Remove this material from your shoes and clean personal protective equipment.

**Comments:** Never eat, drink, or smoke in work areas. Practice good personal hygiene after using this material, especially before eating, drinking, smoking, using the toilet, or applying cosmetics.
