## Section 4 - First Aid Measures

**Description of necessary measures, subdivided according to the different routes of exposure:**

**Inhalation:** Remove victim to fresh air and keep at rest in a position comfortable for breathing. If symptoms develop, obtain medical attention.

**Skin contact:** Remove affected clothing and wash all exposed skin area with mild soap and water, followed by warm water rinse. If symptoms develop, obtain medical attention.

**Eye contact:** Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If symptoms develop, obtain medical attention.

**Ingestion:** Rinse mouth. Do NOT induce vomiting. Give 100-200 ml of water to drink. If symptoms develop, obtain medical attention.

**Inhalation:** May cause irritation to the respiratory tract.

**Skin contact:** Repeated and/or prolonged skin contact may cause irritation.

**Eye contact:** May cause eye irritation.

**Indication of immediate medical attention and special treatment needed, if necessary:** None

## Section 5 - Fire-Fighting Measures

**Suitable Extinguishing Media:** Use extinguishing measures that are appropriate to the surrounding fire.

**Unsuitable Extinguishing Media:** None

**Specific hazards arising from the chemical:** Hazardous decomposition products may include, but are not limited to, CO and CO<sub>2</sub>. Wear self-contained breathing apparatus for firefighting if necessary.

## Section 6 - Accidental Release Measures

**Personal precautions, protective equipment, and emergency procedures:** Use personal protective equipment as required. Avoid contact with skin and eyes. Do not breathe dust. Where excessive dust may result, wear approved mask.

**Methods and materials for containment and clean up:** Avoid dust formation. Clean up dust and fiber with high efficiency particulate air (HEPA) filtered vacuum equipment or by wet cleaning. Do not dry sweep dust.

## Section 7 - Handling and Storage

**Precautions for safe handling:** Avoid generating dust during handling. Wash hands and other exposed areas with mild soap and water before eating, drinking, or smoking and when leaving work. Do not breathe dust.

**Conditions for safe storage:** Keep container closed when not in use.

## Section 8 - Exposure Controls / Personal Protection

### Engineering Controls:

**Ventilation:** Use only with adequate ventilation. Avoid dust generation. Recirculated air should be filtered to remove respirable dust. Provide for appropriate exhaust ventilation and dust collection at machinery. Static charges can cause explosions in solvent and dust laden atmospheres. Provide grounding of equipment to prevent static build-up.

### Administrative Controls:

**Respiratory protection:** Dust make or respirator. When workers are facing concentrations above the exposure limit they must use appropriate certified respirators.

**Hand protection:** Wear chemically resistant protective gloves.

**Eye protection:** Chemical goggles or safety glasses.

**Skin protection:** Use chemically protective clothing.
