Color Guide

36 mesh = -36+145 (top size appx. 0.5mm)

18 mesh = -18+145 (top size appx. 1mm)

These colors are representative of the granules cast in clear resin.
Actual color and granule size will vary.

Spectrasand Color Granules Product Information

All MAT granules are ISO NPG, thermoset, polyester based solid surface granules. They are flame retardant, chemical and stain resistant, heat resistant and UV stable.

Spectrasand Granules are the individual colors used in decorative coatings applications. Most are available in -18+145 (medium) and -36+145 (small) mesh sizes. These colors can be added in various proportions to add increased density and color.

Color Blends - (DX)

Spectrasand DX color blends offer a pre-blended dry mix of various granule colors and particle distributions for use in flooring and architectural applications. Special blends are also available by request.

DX 210
Pewter

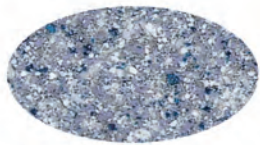

DX 300
Sandy Beach

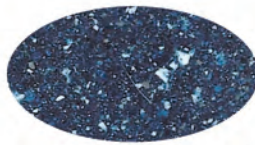

DX 330
Walnut Toffee

DX 630
Winter Pines

DX 725
Blue Jeans

DX 750
Lake Michigan
