Cast Polymer

THE R.J. MARSHALL COMPANY

For 35 years we have been manufacturing easy to use, quality products offering superior colors and styles that get results. So if you need a thermal shock eliminating lightweight filler to back up your spray granite shower base or vanity top, we have that, or maybe a cast cultured granite or spray granite filler that looks like engineered stone. We have that too, and many more. *We seek to make our customers successful, how can we help you?* Check out our products below and visit us at www.Rjmarshall.com to see the latest new products and colors.

The R.J. Marshall Company offers a complete line of fillers for cast polymer manufacturing.

Densified Granite Effect (DGE, LXS, LXX, ICE)

One bag blends for solid surface or cultured granite cast products. Over 50 colors in stock.

Spray Granite Advantage (SGA & SGL)

Granule blends for spray application that results in a beautiful, durable granite effect coating.

STONE FILL (SFL & SFX)

One bag blends for beautiful cast cultured granite.

STONE FILL HD *NEW!* (SFHD)

Castable, large chip granite effect filler.

Onyx Fill™ & Dense Fill™ (OF, DF)

Alumina Trihydrate for cultured onyx and solid surface cast applications.

StoneRidge (Spray Granite Extreme)

Granule blends for spray applications that results in a coating with a large particulate engineered stone appearance.

PROlite™ (PL25, PL50, PL50FG, PL700)

Save weight & improve thermal shock results of your cast polymer parts.

MAXFIL (MX300 series)

Flame retardant fillers for maximum filler loading to achieve class 1 flame ratings.

 Solid Surface granules are manufactured under The R.J. Marshall exclusive patent and contains up to 22% post industrial recycled content.

NEW! SFHD 2720 Flagstaff

SFHD 3010 Riveria

SFHD 3150 Sahara

SFHD 3200 Caraway

SFHD 3365 Mesa

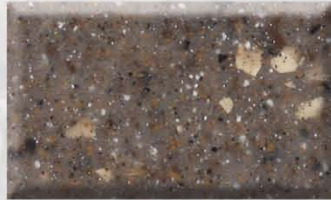

SFHD 3675 Hickory

NEW! SFHD 3815 Granola

SFHD 3825 Nutmeg

SFHD 3945 Maui

SFHD 4115 Meteor Grey

Stone Fill & Stone Fill HD offer the following features:

- One bag, preblended mix - Good filler suspension in a casting resin
- Color consistency from batch to batch - Easy to cut with standard marble tools
- Minimal abrasion during mixing - Easily pigmented to achieve numerous hues
- Same appearance is obtained when casting on vertical & horizontal surfaces

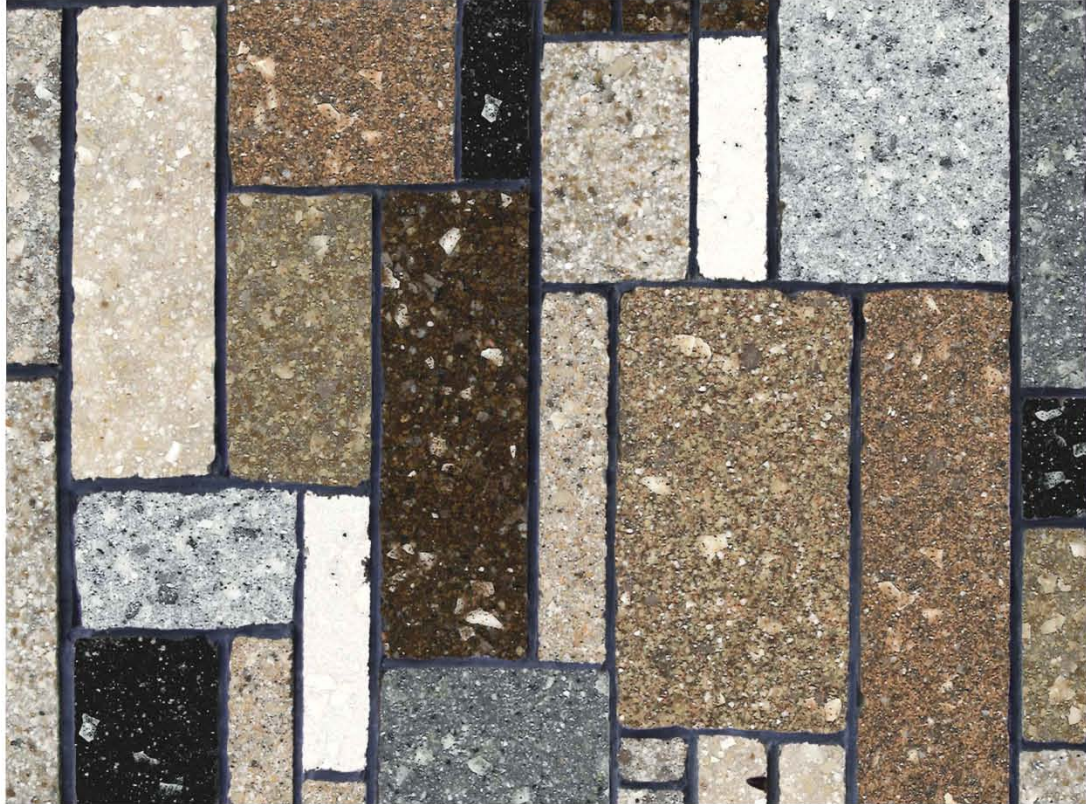

**Actual color and granule size will vary. Final product determination must be based on casting in your resin and process.*

High Definition

Spray Granite

THE R.J.
MARSHALL
COMPANY

Extreme

- Outstanding coverage
- Less shrinkage than thermoplastic granule products
- Superior bonding with your quality gelcoat system
- The ability to mix only what you need when you need it (mix today, spray today)
- Extraordinary cost savings when compared to other "wet" ready-to-spray products

 Solid Surface granules are manufactured under The R.J. Marshall exclusive patent and contains up to 22% post industrial recycled content. 

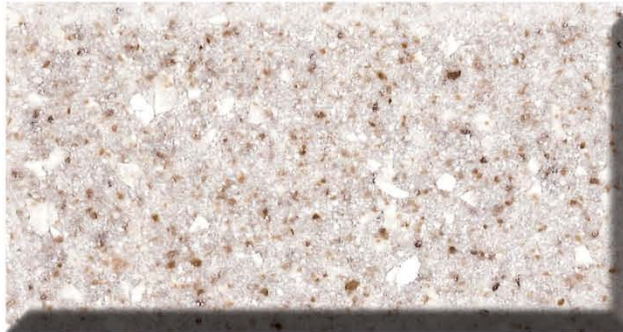

Spray Granite Extreme (SGE) is shipped as a non-hazardous, non-flammable material and will last indefinitely if properly stored.

New Spray Granite Colors

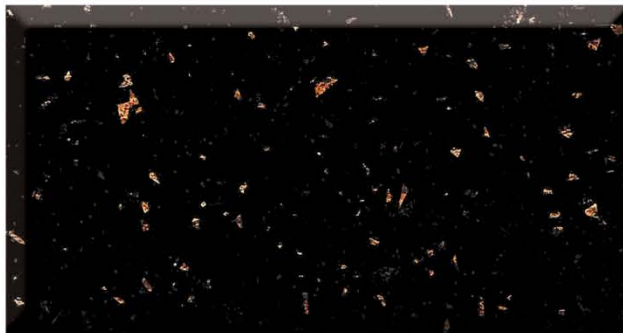

Frost SGE 225

Monochromatic neutral with a fuse of various hues of grey chips and metal chrome reflective.

Quarry SGE 332

Large white chips intermixed with subtle gold metallic.

Vesuvius SGE 463

Bold copper metallic reflective highlight this black granite.
