

## “Basic Kit” Whirlpool Kits

Duraflo's "Basic Kit" Whirlpool Kits offer a convenient way to convert a standard soaker tub into a jetted whirlpool bath.

Basic Kits include the "plumbing portion" of a full whirlpool kit. They include the components listed in the tables below, which are the jet bodies, wall fittings, required fittings (Tees and Elbows). They do NOT include the pump, hose and capsets - which must be purchased separately. If you would prefer a more complete kit, then review our **Duraflo Econo Pak Kits** offer a more extensive kit including a pump and capset.

The kits below specify a particular Jet Body style (eg Hydro 5, VIP 4, VIP 3, etc). You will need to purchase a matching capset of the same style - selecting the desired color or finish you prefer. Capsets include all the "caps or covers" you will need for the kits below - including the appropriate number of jet face caps, plus a suction cover, pneumatic on/off control, and air flow control cover. Be sure to specify the capset with the appropriate number jets.

If you would like assistance in selecting the right kit.- just call, and let us know what style, color, hose size wall thickness, number of jets and what size pump you need, and we will supply a kit for your needs.

### Included

#### Jet Bodies

**Wall Fittings** (specify thickness\*)

Necessary **PVC Fittings**  
(Tees and Elbows)

**Pneumatic On/Off Control Body**

**Standard (aka "Silent") Air Flow Control Body** (unless specified otherwise)

### NOT INCLUDED

**Capsets** (combination of all jet body facecaps, on/off control cover, air flow control cover, and suction cover.

#### Pump

**Hose** (buy the size specified by the kit you're purchasing)

### Choosing a Basic Pak:

1. Select Hose Style - 3/4" or 1" Diameter (Note - this is the hose diameter required for the kit, and NOT the actual hose. Hose must be purchased separately).
2. Select Jet Assembly Body and Capset Style - **VIP 3**, **VIP 4**, or **Hydro 5**
3. Select required Wall Fitting thickness (depends on your type of tub - see comparison here) - either Short, Medium or Long
4. Choose the kit with the desired number of jets (4, 6, 8)

A variety of Basic Pak kits are configured below to offer you a choice of options. Refer to the part number at the end of each row for that item.

## "Basic Pak" Kits with Hydro 5 Jet Bodies

Kit	Jet System	Hose Fitting Size	Wall Fitting Length	Pneumatic On/Off Control?	Air Control?	# of Jets	Order Number
