

Hydro 5 Jets

Hydro 5 Jet Assemblies are sets of three individual components - a Jet Body designed to accommodate a Hydro 5 face cap, a Wall Fitting, and a Hydro 5 style Facecap

The illustration at right shows the three components - and shows a choice of both Jet Bodies, and of Wall Fittings. Which one of each is right for you depends on the pump and water hose used in your system, and thickness of the bath tub you are adding the whirlpool kit to.

Jet Bodies are positioned on the tub, and installed by drilling a 1-1/2" hole through the tub wall for each Jet Body employed in your whirlpool system. Water is supplied from the pump via hoses (either 3/4" or 1" diameter depending on your pump and system requirements).

A **Wall Fitting** is fitted through the drilled hole, and screwed into the Jet Body. The Wall Fitting length that you require is dependent upon the thickness of the tub being used. Measure your tub wall thickness to determine which wall fitting you require.

Bathtub Construction	Typical Wall Thickness	Appropriate Wall Fitting
Acrylic	< 3/4"	Short
Cultured Marble or Solid Surface	3/4"	Medium
Thick Cultured Marble or Solid Surface	1" or greater	Long

Hydro 5 Face Caps offer a lower profile than earlier VIP 3 or VIP 4 Face Caps, and are available in a variety of finishes and colors. They are attached by threading them into the Wall Fitting.

Pre-Configured Jet Assemblies

Jet Assemblies can be ordered by ordering individual component parts, or use the Jet Assembly Order Numbers shown in Column 1 below to order one of these pre-configured Jet Assemblies.

Jet Assembly Order No.	Face Cap	Jet Body	Wall Fitting Length
JA5096	Classic White (CWHT)	3/4"	Short
JA5097	Classic White (CWHT)	3/4"	Medium
Call	Classic White (CWHT)	3/4"	Long
JA5098	Classic White (CWHT)	1"	Short
JA5099	Classic White (CWHT)	1"	Medium
Call	Classic White (CWHT)	1"	Long
JA5256	Chrome ABS (CHA)	3/4"	Short
JA5267	Chrome ABS (CHA)	3/4"	Medium
Call	Chrome ABS (CHA)	3/4"	Long
JA5258	Chrome ABS (CHA)	1"	Short
JA5259	Chrome ABS (CHA)	1"	Medium
Call	Chrome ABS (CHA)	1"	Long

Individual Components

The kits shown above utilize these individual component parts. If you need to replace one of those parts, refer to the part number for that item.

Jet Bodies

Choose from 3/4" or 1" diameter (based on your required hose diameter):

			
White - 3/4" #JB1004	Clear - 3/4" #JB1004-CL	White - 1" #JB1005	Clear - 1" #JB1005-CL

Jet Wall Fitting

Choose from Short (1" depth), Medium (1-1/2" depth), or Long (2-3/4" depth) wall fittings, depending upon the thickness of your tub.

Short, 1"
#JW500S

Medium, 1-1/2"
#JW500M

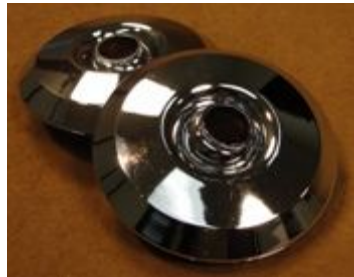

Long, 2-3/4"
#JW500L

Face Caps

Other facecaps may be available - call for options:

Classic White (CWHT)
#JC5090

Chrome ABS (CHA)
#JC5250
