Product Information

Reflections / Metal Flake

Additive Package

The Reflections series is a polymer and ATH based metallic additive package that can be blended into our granite fillers to bring your products the dramatic effect of many natural granites. The material is Class I flame and smoke retardant, as well as chemical and stain resistant. Reflections gives a sparkle effect to granite filler allowing you to offer a wider variety of appearances by easily adding them at 5-10% dry weight to your existing fillers.

RFL Silver
RFL Gold
RFL LT Gold
RFL Copper
RFL Blue

The Metal Flake series are polymer based, medium to large random cut chips that gives a highly reflective big chip appearance when added at only 0.25 – 0.50% by weight to a pound of spray granite matrix.

MFL Chrome
MFL Copper

Samples are available upon request.

Revised 12/9/14

Terms and Conditions of Sale: All statements, technical information and recommendations are based on tests we believe to be reliable, the accuracy or completeness is not guaranteed, and the following is made in place of all warranties, expressed or implied. Our only obligation is to replace product proved to be defective. We shall not be liable for any injury, loss or damage, direct or indirect, from using or not being able to use the product. Before using, customer must determine the suitability of the product for the intended use and customer assumes the responsibility. This statement may not be changed except by an agreement signed by an officer of The R.J. Marshall Company.
