

## "Relax" Econo Pak Whirlpool Kit

*Premium Whirlpool Kit with more power, and three separate control "zones"*

The Duraflo Relax Pak Whirlpool Kit offers customers a sophisticated hydro massage installation, with increased power and controls not found in ordinary whirlpool baths. This kit offers increased jets and power, plus three separate air flow controls to independently control the force for three separate "zones"- the sides, the back and the feet. The system combines a variety of different jets that are appropriate for each zone. Because of the increased flow requirements of this tub, this kit is equipped with a more powerful 7.5 amp pump, as well as 1" hose fittings.

**Note - complete Soothing Econo Paks are available in White only, although some individual components may be available in other colors and finishes. Call your Sales representative at (866) 260-6457 for assistance if you need any color other than white.**

The Relax Pak includes everything required to plumb a tub except the hose and glue. Choose from these available kit configurations:

- **Relax Pak** - Classic White Trim, VIP 3 Jets, medium wall fittings, three (3) Air Flow Controls, and (1) Pneumatic On/Off Control, 8-10 Jet Soft Massage 7.5 Amp 115V/60Hz Pump with 1" Diameter Hose Fittings - **#RP3099M17**
- **Relax Pak** - Classic White (CWHT) mixed jet configuration includes VIP 3 Jets (4), Spa Jets (2), Mini Eyeball Jets (4), Mini Whirly Jets (2), Medium Wall Fittings, Air Flow Controls, and Pneumatic On/Off Control, and 8-10 Jet Soft Massage 7.5 Amp 115V/60Hz Pump with 1" Diameter Hose Fittings - **#RP3099M60**

### **Optional Purchases with this kit:**

It is possible to replace the standard white air flow controls and on/off switch with other finishes besides white, such as Brushed Nickel, Oil Rubbed Bronze, etc. Those items would have to be purchased separately. Contact Sales representative if you are interested in this configuration.

### **NOTICES:**

- **All Chrome metal Econo Paks include a Chrome ABS Air Control and On/Off Caps.**
- **For this kit, both 1" flex hose and 1/2" hose is required. Those items are listed below, along with the recommended length (in feet) of each. Hose is not included with Duraflo EconoPak Whirlpool Kits, and must be ordered separately.**
- **Glue and Hose are NOT included in this kit, and must be ordered in addition to the kit.**
