

VIP 4 Jets

VIP 4 Jets are assemblies of three individual components - a Jet Body, a Wall Fitting, and a VIP 4 style Facecap.

The illustration (at left) shows the three components - and shows a choice of both Jet Bodies, and Wall Fittings. Which one of each is right for you depends on the pump and water hose used in your system, and thickness of the bath tub you are adding the whirlpool kit to. Note that VIP 3 and VIP 4 facecaps are interchangeable on a VIP jet system.

Jet Bodies are positioned on the tub, and installed by drilling a 1-1/2" hole through the tub wall for each Jet Body employed in your whirlpool system. Water is supplied from the pump via hoses (either 3/4" or 1" diameter depending on your pump and system requirements).

A **Wall Fitting** is fitted through the drilled hole, and screwed into the Jet Body. The Wall Fitting length that you require is dependent upon the thickness of the tub being used. Measure your tub wall thickness to determine which wall fitting you require.

Bathtub Construction	Typical Wall Thickness	Appropriate Wall Fitting
Acrylic	< 3/4"	Short
Cultured Marble or Solid Surface	3/4"	Medium
Thick Cultured Marble or Solid Surface	1" or greater	Long

VIP 4 Face Caps are very popular, and are available in a variety of finishes and colors. They are attached by threading them into the Wall Fitting. The VIP jet's innovative venturi design permits individual adjustment of the water/air flow at each jet - in addition to the master air regulator control. The attractive one-piece face plate encapsulates a recessed directional flow fitting which can be easily adjusted as much as 40 degrees. The solid one-piece design eliminates build up of hard to clean bath water residue.

Pre-Configured Jet Assemblies

Jet Assemblies can be ordered by ordering individual component parts, or use the Jet Assembly Order Numbers shown in Column 1 below to order one of these pre-configured Jet Assemblies. Each item below is an assembly that includes a Jet Body, the specified Wall Fitting & specified Face Cap).

Jet Assembly Order Number	Face Cap	Jet Body	Wall Fitting Length
JA4	Classic White (CWHT)	3/4"	Short
JA4	Classic White (CWHT)	3/4"	Medium
JA4	Classic White (CWHT)	3/4"	Long
JA4	Classic White (CWHT)	1"	Short
JA4	Classic White (CWHT)	1"	Medium
JA4	Classic White (CWHT)	1"	Long
JA4	Bone (BOE)	3/4"	Short
JA4	Bone (BOE)	1"	Short
JA4	Bone (BOE)	1"	Medium
JA4	Chrome ABS (CHA)	3/4"	Medium
JA4	Chrome ABS (CHA)	1"	Short
JA4	Chrome ABS (CHA)	1"	Medium
JA4	Chrome ABS (CHA)	1"	Long
JA4	Chrome Metal (CHM)	3/4"	Medium
JA4	Chrome Metal (CHM)	1"	Short
JA4	Chrome Metal (CHM)	1"	Medium
JA4	Polished Brass ABS (PBA)	3/4"	Medium
JA4	Polished Brass ABS (PBA)	1"	Short
JA4	Polished Brass ABS (PBA)	1"	Medium
JA4	Polished Brass Metal (PBM)	3/4"	Medium
JA4	Polished Brass Metal (PBM)	1"	Short
JA4	Polished Brass Metal (PBM)	1"	Medium
JA4	Polished Nickel Metal (PNM)	1"	Medium

Jet Bodies:

Choose from 3/4" or 1" bodies - in either white or clear colors. Choose which based on your water hose diameter.

3/4" White #JB1004	3/4" Clear #JB1004-CL	3/4" White #JB1005	1" Clear #JB1005-CL
-----------------------	--------------------------	-----------------------	------------------------

Jet Wall Fitting:

Choose from Short (1" depth), Medium (1-1/2" depth), or Long (2-3/4" depth) wall fittings, depending upon the thickness of your tub.

		
Short, 1" #JW500S	Medium, 1-1/2" #JW500M	Long, 2-3/4" #JW500L
Short, 1" For VIP 3 or VIP 4 #JW1001	Medium, 1-1/2" For VIP 3 or VIP 4 #JW1002	Long, 2-3/4" For VIP 3 or VIP 4 #JW1003

VIP 4 Jet Face Caps:

Choose from Short (1" depth), Medium (1-1/2" depth), or Long (2-3/4" depth) wall fittings, depending upon the thickness of your tub.

			
Classic White (CWHT) #JC4090	Bone (BOE) #JC4080	Chrome ABS (CHA) #JC4250	Polished Brass ABS (PBA) #JC4260
			
Chrome Metal (CHM) #JC4010	Polished Brass Metal (PBM) - #JC4020	Brushed Nickel Metal (BNM) - #JC4400	Pearl Nickel Metal (PNM) #JC4500
			
Oil Rubbed Bronze (ORB) #JC4600
