

Meet the MAT “Tech Team”

The MAT (Marshall Additive Technologies) business unit of the The R.J. Marshall Company has a commitment to advancing the technology of the markets they serve. We have engaged an experienced and resourceful “Tech Team” to help develop new ideas in order to solve problems and advance ideas into productive innovation.

Mr. Frank Butwin: BS, Chemistry / MS, Organic Chemistry. Has been active in development of new products and applications in circuit board laminates, thermoset resins, composites, colored granules and flame retardant additives. He currently holds the position of MAT Research & Development Director.

Dr. Edward Weil: PHD, Polymer Science, is inventor on over 200 patents. Has worked in the industry and academia bringing new ideas to the market place. He brings many years of experience & innovation to the practical polymer industry. Among his publications is the book “Flame Retardants for Plastics and Textiles: Practical Applications”.

Mr. Ed Neckermann: BA in Chemistry plus several years of graduate study in mathematics and chemistry. He has been active for over sixty years in innovative product development and processing of Industrial Additives. He holds several patents and is responsible for significant discoveries of new cost effective products and applications.

Mr. Bill Coble: BS and Master's in Chemistry. Has assisted the Tech Team in developing new and innovative solutions for fire retardant and smoke suppressant applications. Has over 40 years of commercial and technical experience in specialty additives for the chemical industry. Bill is currently President/CEO of the Allison Group and holds the title of MAT Director of Sales.

This team is available to insure that we fulfill our motto.

“WE SEEK TO MAKE OUR CUSTOMERS SUCCESSFUL”
