## Section 3 - Composition / Information on Ingredients

Ingredient Name	CAS Number	% Weight
Calcium Carbonate	1317-65-3	94-98%
Magnesium Carbonate	546-93-2	1.2-5.8%
Crystalline Silica	14808-60-7	0.2-0.8%

## Section 4 - First Aid Measures

**Description of necessary measures, subdivided according to the different routes of exposure:**

**Inhalation:** If overcome by high dust concentrations, remove to a ventilated area.

**Eye Contact:** Flush eyes thoroughly taking care to rinse under eyelids. Do not scrub. Abrasion may cause irritation. If discomfort continues, continue to wash with water. If irritation persists, consult a physician.

**Skin Contact:** Wash skin thoroughly with soap and water. Consult a physician if irritation persists.

**Ingestion:** Ingestion of very large quantities may result in intestinal obstruction and/or constipation. Considered to be of very low toxicity.

**Most important symptoms/effects, acute and delayed:** None

**Indication of immediate medical attention and special treatment needed:** None

## Section 5 - Fire-Fighting Measures

**Suitable Extinguishing Media:** Use extinguishing measures that are appropriate for the surrounding environment.

**Unsuitable Extinguishing Media:** None

**Unusual Fire or Explosion Hazards:** None known.

**Hazardous Combustion Products:** None.

**Fire-Fighting Instructions:** Do not release runoff from fire control methods to sewers or waterways.

**Fire-Fighting Equipment:** Because fire may produce toxic thermal decomposition products, wear a self-contained breathing apparatus (SCBA) with a full face-piece operated in pressure-demand or positive-pressure mode.

**Section 6 - Accidental Release Measures**

**Personal precautions, protective equipment, and emergency procedures:** Avoid dust formation.  
**Methods and materials for containment and cleaning up:** Collect solids. Recycle if possible.

**Section 7 - Handling and Storage**

**Precautions for Safe Handling:** Avoid generating dust during handling. Provide appropriate exhaust ventilation where dust is formed.  
**Storage Requirements:** Keep material dry. Do not store near acids.

**Section 8 - Exposure Controls / Personal Protection**

**Engineering Controls:**

**Ventilation:** Provide general or local exhaust ventilation systems to maintain airborne concentrations below OSHA PELs (Sec. 2). Local exhaust ventilation is preferred because it prevents contaminant dispersion into the work area by controlling it at its source.

**Administrative Controls:**

**Respiratory Protection:** If required wear a MSHA/NIOSH-approved respirator.

**Protective Clothing/Equipment:**

**Hands:** Wear protective gloves to prevent prolonged or repeated skin contact.

**Eyes:** Wear safety glasses. Contact lenses are not eye protective devices. Appropriate eye protection must be worn instead of, or in conjunction with contact lenses.

**Contaminated Equipment:** Separate contaminated work clothes from street clothes. Launder before reuse. Remove this material from your shoes and clean personal protective equipment.

**Comments:** Never eat, drink, or smoke in work areas. Practice good personal hygiene after using this material, especially before eating, drinking, smoking, using the toilet, or applying cosmetics.
